

QADRO
modular

A step into our new
definition of space

ICF

A modular and freestanding space system

A versatile frame around the screen

ICF presents Qadro, a unique vertical and modular planning approach applicable in open plan, private offices and activity spaces. The system provides a supporting structure for communication screens and technology, space definition and storage, personal items and coworking elements, wherever needed.

Re-modulate the space

Qadro is a collection of modular elements of extreme simplicity but great flexibility: by changing the size of its anodized extruded aluminium structure and the finishes, Qadro can become a storage unit, a book-shelf or a filing system for office, contract or home, providing an endless number of solutions.

Qadro open plan divider

Qadro Modular can be composed of several elements to create an entire work area within a professional space, or even become a space-creating dividing element itself. In this way it can be used fluidly and flexibly-the perfect solution for an ever-changing way of working. And this is where Qadro comes in: a versatile base element that enables users to create and re-modulate the space to suit the variety of activities it needs to be capable of hosting.

Qadro wall library

Qadro is a collection of modular elements of extreme simplicity but great flexibility: by changing the size of its anodized extruded aluminium structure and finishes, Qadro can become a storage unit, a book-shelf or a filing system for office, contract or home, providing an endless number of solutions.

Qadro modular media wall

The monitor and its surroundings are the new linchpin of the office environment. It is precisely around the screen that flows the new working rhythms with an alternating current of constantly changing needs: meetings and remote calls, brainstorming sessions and educational initiatives, staff training and operational meetings, relax and time-outs.

Size-up

Qadro combines versatility with fine design and strength with lightness. All the elements are made of extruded aluminium design with a particular section that grants to be realized of a considerable size so they can be used to create a variety of furnishing solutions, even when used on their own.

Divide

Decide

Flexibility of Qadro

See how the flexibility of Qadro Modular allows you to transform a single space into several different work areas: meeting rooms of various sizes, video conferencing spaces, training areas, multi-purpose recreational spaces.

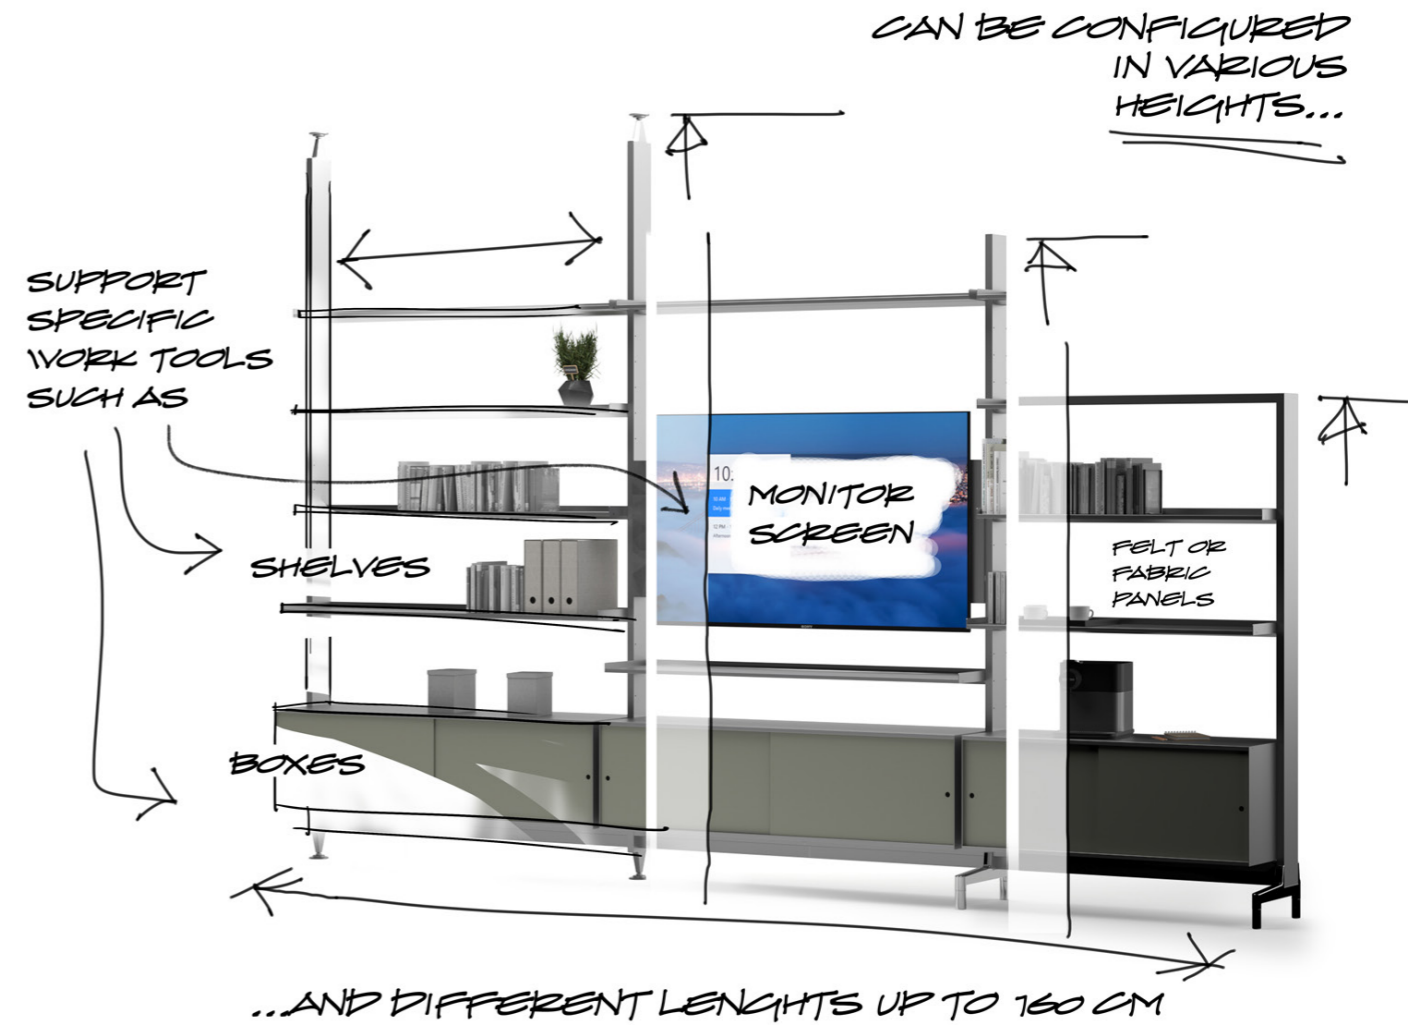

Fine materials and exquisite finishes

Qadro Modular is not only characterised by a high level of practicality and a flexibility that is easy to achieve. Above all, it is a furnishing element of excellent quality, created with fine materials and exquisite finishes. The frame, shelves and stand of the containers are made of aluminium, available in different finishes, to which elements in fenix or crystal can be added, depending on the module to be created.

Self-supporting

Qadro is available with a freestanding base in die-cast aluminium or with a full height vertical post. The self-supporting structure can lean against a wall or can be used to divide spaces. The installation allows this to happen quickly and effortlessly anywhere in the work spaces.

Fluid spaces

The requirements of today's workplace call for a fluid and flexible interpretation of the office space: alongside more traditional working areas, we must make room for spaces that can be easily adapted to suit new and very specific requirements: videoconferencing spaces, training areas, multipurpose recreational spaces, coworking areas and much more, need that are increasingly new and distant from the status quo.

A modular system of great elegance and personality, characterized by lightness of volumes and contemporary style. A perfect fusion of tradition and modernity. Quadro has been designed as a product with extremely rigorous and essential lines, with an attention to details that upgrades its aesthetic value.

Qadro adopts a design language founded on expressive value and technological research. Design as the desire to propose onto the market a product of sound aesthetic value that best caters for the need of versatility and functionality of office work. And with the possibility of creating endless configurations: Qadro is indeed perfect for being assembled in different ways according to specific requirements.

Qadro is a modular system which, thanks to its technical and formal features, can be used to divide any type of office, from relax area, to the more operative ones.

The great variety of finishes and endless configuration options allow the realisation of original solutions, expressly designed for different requirements.
